

Geological Maps - 1:50 000

The 1:50 000 geological map series was produced and published by the Geological Survey of Victoria between 1978 and 2008. These maps represent the pinnacle of detail for the geological map series.

Maps were generally compiled at 1:25 000 scale and the maps were produced using computer aided techniques from the mid 1990s. 114 maps were published in this series.
